

# Climate Impact Information Workshop

24 June, 2021

Online/Zoom

## Objectives:

1. Build capacity on the use of climate impact tools based on ISIMIP data: ISIpedia and the Climate Impact Explorer
2. Gather feedback on these existing tools
3. Reflect and exchange experience on the current and potential use of climate impact tools (e.g., for policy processes)
4. Informing about the scope, coverage and production process of the ISIMIP data

## Agenda:

Thursday 24 June	
09.00-09.15	Introduction and Welcome Introduction of the ISIpedia project, progress of the project over time, programme of the workshop
09.15-10.45	Presenting in detail ISIpedia and the Climate Impact Explorer, focusing on information for Eastern European countries, and gathering impressions and feedback on both portals
<i>Break 15 Minutes</i>	
11.00-11.45	Introducing ISIMIP, Q&A on underlying data
11.45-12.25	Discussion on the importance of climate impact information, including current needs and use
12.25-12.30	Wrap-up and thanks

*This workshop will be facilitated by the ISIpedia Stakeholder Engagement Team from Climate Analytics. With any questions, please reach out to:*
